Dimension Xpand Plus/RxL Max Integrated Chemistry Systems

siemens-healthineers.com

The first truly integrated chemistry systems

Dimension Xpand Plus Integrated Chemistry System

The Dimension® Xpand® Plus Integrated Chemistry System combines chemistry, STAT, and specialty testing in a single, compact, easy-to-use system.

- 47 assays onboard simultaneously for streamlined efficiency
- Innovative Flex® reagent cartridge technology to eliminate manual reagent preparation and sample pretreatment
- Up to 400 tests/hour

Dimension RxL Max Integrated Chemistry System

The Dimension® RxL Max® Integrated Chemistry System improves work processes by providing true integration of chemistry and immunoassay testing in a single unit.

- 91 assays onboard simultaneously for minimized sample splitting and reduced turnaround time
- Sample integrity analysis, such as HIL determination, without compromising throughput and productivity
- More results from one tube on one system, without sample splitting
- Up to 800 tests/hour, including 100 basic metabolite panel (BMP) samples/hour

Dimension Xpand Plus/RxL Max Integrated Chemistry Systems
